Profile

Proactive and versatile **Full Stack Developer** with 1 year of experience in designing, developing, and maintaining scalable web applications. Skilled in **PHP (Laravel), Python (Django), JavaScript, MySQL, and REST APIs** with strong problem-solving and debugging expertise.
Hands-on experience in building live projects (*AMC system, CRM, Ticketing, Library*) with a focus on clean architecture (MVC/MVT), responsive UI, authentication, and automation.
Dedicated to continuous learning, effective collaboration, and delivering optimized solutions.

Education

•Bachelor of Engineering – Information Technology *2021-25*

Sardar Vallabhbhai Patel Institute of Technology, Anand, Gujarat CGPA: 7.88

Work Experience

•Apni AMC – Service Management System (Live Projects)

Built a web-based AMC system for technician task allocation and contract tracking.

– Integrated role-based access for adminand client panels.
– Developed modules for technician management, email quotations, AI-based task suggestions.
– Integrated Paytm and Razorpay payment gateways for secure and seamless online transactions.
– Designed CRUD modules with Laravel and AJAX for real-time updates.
– Technologies: PHP, Laravel, MySQL, AJAX, JavaScript, Bootstrap.

•MukeCRM – Company Task Management System

Developed CRM features for daily/weekly task assignment and employee reporting.

– Created lead management, subscription billing, and task tracking modules.
– Integrated role-based authentication and optimized queries for scalability.
– Technologies: PHP, Laravel, MySQL, AJAX, JavaScript, Bootstrap.

•Client Support Ticketing System

Built a secure ticket management platform for clients.

– Added custom authentication, AJAX ticket submission, and client data isolation.
– Designed modular models with validations and proper relationships.
– Technologies: Python, Django, SQLite, AJAX, HTML, CSS, JavaScript.

Internship Experience

•Full Stack Development Intern *Feb 2025 – Aug 2025*

Mukesoft Company

– Worked on Apni AMC and MukeCRM projects as a full stack developer.
– Implemented AJAX-based CRUD, authentication, reporting, and real-time data handling.
– Collaborated with team on requirement analysis, debugging, testing, and deployment.
– Strengthened skills in Laravel, Django, MySQL, REST APIs, and responsive UI design.

Technical Skills and Interests

Languages: Python, PHP, Java, C, JavaScript, HTML, CSS, SQL
Frameworks: Django, Laravel, CodeIgniter, Bootstrap, jQuery
Databases: SQLite, MySQL
Tools & Technologies: Git, AJAX, REST API, VS Code, Postman
AI Tools: Windsurf, GitHub Copilot, Warp, ChatGPT (Prompt Engineering)
Concepts: MVC Architecture, CRUD Operations, Authentication, Session Management
Cloud & AI: AWS (Basics), LLMs, AI Model Integration
Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability
